“ My sincerest condolences go out to Bob's family. I know he will be missed and remembered by many. I was Bob's administrative assistant when he was the Principal at Tonica high school. I believe he was my most memorable and favorite "boss". Laughter was part of each day and I thrived on his quick wit and sense of humor. His laugh was so contagious and we could laugh at the most innocuous situations. I regret not staying in touch with him. I look at his photo in this obituary and it makes me smile. I'm glad he was in my life path.

“ I got to know Robert as “Boog” in junior high. We shared an interest in biology, particularly the outdoors. We constructed a wooden terrarium for our science classroom and stocked it with soil, moss, grass, sticks, and a tiger salamander. Boog and I loved handling the salamander (it felt like a water balloon) and feeding it grasshoppers which it snapped up with startling quickness. Boog had a particular grin and laugh every time this happened. We also pursued baby garter snakes, which Boog took home, much to his mom’s distress. Those are a couple of fond memories I still can recall of those halcyon days as kids in Princeton. Sorry to hear of Robert’s passing. May he rest in peace. — John Frederick (“Rick”) May, Biology Professor Emeritus, Marian University, Fond du Lac, Wisconsin.
