“ Deepest condolences sent and God bless. Glad we had the time together that we did. Remembering when we were kids and having sleep overs at weeks at a time. From chewing on tasty tooth picks and going to the local pool. Even just swimming in the lake behind the house. Remembering the time we slept in the basement and I cut my foot open and we sat in the dark thinking how deep it was and if when should tell your parents since we were suppose to be sleeping. To even the most recent talking about swimming with the dolphin instead of jumping out of a plane. Thats why they invented I FLY and you agreed. Love all ways..As I remember you call me My cousin Val and this is cousin Wen
